PRE-CONFERENCE SESSIONS

SUNDAY, JANUARY 5

All Times Are Eastern Standard Time

4:00-6:00 p.m.

FARMERS MARKET SHORT COURSE

Kate Hamilton and Sharon Spencer Presiding, Salon C

Are you a farmers' market leader, farmers' market vendor or even just someone thinking about selling at a farmers' market? Join us for the pre-conference session for an engaging and interactive short course on farmers' markets. Come learn how to grow your market and grow your individual sales. Learn about new changes for 2025 for the farmers' market program, funding opportunities and updates from the farmers' market nutritional programs (Senior and WIC). But that's not all, from our partners with the University of Kentucky to learn about the farmers' market price reports from 2024 for rural vs. non-rural markets. Also, the UK team will be partnering up with CFA to discuss events, promotions and challenges facing markets. Lots of good information to take back to your markets.

4:00-6:00 p.m.

FARM FOOD SAFETY PLAN WORKSHOP

Bryan Brady and Courtney Bartlett, Presiding, Salon D

Attention to food safety is critical to your farm's reputation. GAPs audits are becoming a standard requirement for many buyers of Kentucky produce crops and can give you a competitive advantage when selling. To help Kentucky growers focus on food safety and access markets that require third-party audit certification, we are offering a workshop focused on writing a farm food safety plan. The session will include an overview of different GAPs audits and details about on-farm technical assistance. You will learn the main structural components of a food safety plan such as standard operating procedures (SOPs), common food safety policies, and how to keep records efficiently. We will work through SOP and recordkeeping templates, and you will even get to write some specific to your operation with hands-on assistance. If you have a laptop, bring it along to work on the templates digitally. The format will be very interactive with opportunities to discuss challenges and develop solutions with experts.

4:00-6:00 p.m.

BRINGING THE FARM TO SCHOOL GROWER TRAINING

Laurie White, Presiding, Salon E

Are you a KY producer interested in selling to school markets? We invite you to attend our Bringing the Farm to School Grower Training program. The Bringing the Farm to School curriculum is a series for ag producers from the National Farm to School Network meant to prepare producers to sell to school markets. With our KY spin, we hope you'll walk away feeling ready to approach your local school! All agriculture producers are invited to attend the training.

6:00-8:00 p.m.

6:30-7:30 p.m.

VEGETABLE GROWERS YEAR IN REVIEW / MEET & GREET

Rachel Rudolph, Presiding, Salon F

7:30-8:30 p.m.

FRUIT GROWERS YEAR IN REVIEW / MEET & GREET

Brent Arnoldussen, Presiding, Salon F

5:00-9:00 p.m.

Exhibitor Set-up

Foyer Area, Salons A&B, and Lane's End, Dixiana, Darby Dan, and Calumet Rooms

Bonus Grower Roundtable Roundtable Topics:

Bridging the Gap: How Small Farmers Can Gain Visibility in a Big Ag World - exploring strategies for small and urban farmers to get noticed by government agencies, larger markets, and consumers, ensuring their voices are heard in spaces often dominated by big agriculture.

Navigating Agency Interactions: Building Strong Relationships with USDA, NRCS, and FSA - a practical discussion on how to effectively engage with government agencies, understand their processes, and ensure you're accessing the right resources. This includes tips on making your case and advocating for yourself as a small-scale farmer.

Protecting Your Farm: Avoiding Scams and Exploitation by For-Profit Agencies - recognizing warning signs of fraudulent offers and services targeted at small farmers, providing tips on how to verify the legitimacy of funding opportunities, resources, or partnerships. Also, exploring ethical alternatives to for-profit agencies.

Leveraging Resources: How Small Farmers Can Access Support Beyond Big Agriculture - non-traditional funding and support networks for small-scale and urban farmers, including community grants, cooperative funding, and alternative financial tools to help farmers access capital without relying on big agriculture.

Advocacy in Action: Raising Awareness and Fighting for Representation as a Small-Scale Farmer - focusing on how small farmers can organize and advocate for policy changes, gain representation in agricultural boards, and participate in local and state-level discussions to ensure their unique needs are met.
